Thanks Gary. I will not be able to get to this until after next week since I will be on leave all week. I am finishing up a deadline for LHAAP right now and I am suppose to be working on USGS QW specialist duties this week. Since this appears to be a groundwater report, I do doubt there will be any issues since groundwater doesn't appear to be an issue at the site. Are you OK with waiting till the week of December 2nd for potential comments?

I hope all is well.

thanks.

Folks – please let me know as soon as possible whether this will generate any more FS comments or revisions; I am working on putting all the FS comments together now.

Thanks,

Gary Miller

Subject: Draft RI Addendum - San Jacinto River Waste Pits Superfund Site

Gary – On behalf of International Paper, please see the attached draft subject report that summarizes the investigations performed in the area of investigation south of I-10. Hard copies of this report are being sent by overnight delivery. Please don't hesitate to contact me if you have any questions or concerns that come up during your review of this document, and please forward it to others as appropriate.

The document can also be found on the project Wiki portal and is located in the "SJRWPs Site – Working Documents" folder.

Regards,

David
